6254 736 No Consideration DEED THIS DEED made this 8th day of _ January in the year one thousand nine hundred and eighty-six by WILLIAM R. BROWN, JR., Director of Finance for Prince George's County as Treasurer for Prince George's County and Collector of Taxes for the State of Maryland and the County of Prince George's within Prince George's County, Maryland, Grantor, and PRINCE GEORGE'S COUNTY, MARYLAND, a body corporate and politic, Grantee, WITNESSETH, that WHEREAS, certain real property located in the EIGHTEENTH Election District(s) of Prince George's County, Maryland, pursuant to the provisions of Article 81 of the Maryland Annotated Code, 1957 Edition, as amended, was the subject of a tax sale and was purchased by Prince George's County, a body corporate and politic; and WHEREAS, Prince George's County foreclosed all rights of redemption to this property in accordance with law as set forth in the Final Judgment in Equity Case No. CAE 85-9368 by the Circuit Court of Maryland for Prince George's County, sitting in equity on _____December 10, 1985 WHEREAS, the above-mentioned decree directs the said William R. Brown, Jr., Director of Finance of Prince George's County as Treasurer of Prince George's County, Maryland, and Collector of Taxes for said State and County, to execute a deed to Prince George's County as successor in interest to the County Commissioners in fee simple.

6254 737

-2-

NOW, THEREFORE, in consideration of these premises, and for the sum of \$10.00, receipt of which is hereby acknowledged, I, the said William R. Brown, Jr., Director of Finance, as Treasurer and Collector of Taxes for Prince George's County, do hereby quitclaim unto Prince George's County, Maryland, a body corporate and politic, all right, title, and interest in the land in Prince George's County, Maryland, described on the tax rolls as follows:

Seat Pleasant, 2.7364 acres, Map 0073, Grid B-2, Par 146, Eighteenth Election District, assessed to Isaac Cohen and William Harmatz (Account No. 18 10137-00-005 - Item 18-B)

Seat Pleasant, Parcel 147, 11.9933 acres, Eighteenth Election District, assessed to Isaac Cohen and William Harmatz (Account No. 18 10137-01-000 - Item 18-C Map 0073, Grid B-2)

together with whatever buildings and improvements thereupon erected, made or being; and all rights, alleys, ways, waters, privileges, appurtenances and advantages to the same being in anywise appertaining.

WITNESS my hand and seal.

Ona L Vavel

William R. Brown, Jr.

Lender/Client	Prince George's County				

Purpose of the Appraisal

The purpose of the report is to develop and report an opinion of market value for the subject property.

Scope of the Appraisal

The scope of the appraisal provides for a physical inspection of the property and its surroundings sufficient to gather data necessary to form a supportable estimate of market value. Comparable properties are chosen after reviewing recent settled sales, current listings, and properties currently under contract for sale. Specifics regarding physical features of the comparable properties and the terms of sale are obtained from one or more of the following sources: Multiple Listing Services, public records, deeds, and other commercially available subscription services. Comparable sales are then compared to the subject, and necessary adjustments (market abstracted) are applied to arrive at an indicated value by direct sales comparison. A reasoned reconciliation of the approach to value is then made to arrive at an estimate of market value as defined in the appraisal report as of the effective date of the appraisal and subject to the Certification and Limiting Conditions that are attached hereto.

Unless otherwise stated in the appraisal report, the appraiser has no knowledge of any hidden or unapparent conditions of the property that would make the property more or less valuable and makes no guarantees, or warranties, expressed or implied, regarding the condition of the property. Furthermore, this appraisal report is not a home inspection report. No warranty is expressed or implied.

Standard Comments

- 1) Client: The client is the private party who has engaged this assignment, or other representative/employee that is a party to the ordering of the appraisal.
- 2) Intended Use: The intended use of the appraisal report is to assist the client in evaluating the subject properties market value, as of the effective date of this assignment.
- 3) Intended User: The intended user of the report is the client who has ordered the appraisal report or the employee(s) of the client that may be required to review or comment on the appraisal. The report is intended for use only by the client. Use of the report by others is not intended by the appraiser.
- 4) Exposure Time: The exposure time of the subject is the same as marketing time. Exposure time is defined as: The estimated length of time the property interest being appraised would have been offered on the market prior to the hypothetical consummation of a sale at market value on the effective date of the appraisal.
- 5) I am qualified and competent to perform this appraisal under USPAP guidelines.
- 6) No personal property other than what is typical for the area is included in this report, (i.e. appliances).

Additional Certifications

-My analyses, opinions, and conclusions were developed, and this report has been prepared, in conformity with the Uniform Standards of Professional Appraisal Practice (USPAP) and in accordance with the regulations developed by the Lender's Federal Regulatory Agency as required by FIRREA.

The photographs presented in this report were produced using digital photography. None of the photographs have been altered with the possible exception of brightness and or contrast in order to enhance clarity. Photographs are true representation of the subject and or comparable sales as of the inspection date unless otherwise noted in report.

No warranty of the appraised property is given or implied.

This appraisal is not intended to be used by any third party as the third party is not the intended user as defined in this report. This appraisal report has been prepared solely for the benefit of the client identified here within. It is not prepared for the benefit of others.

Neither I, nor anyone associated with this appraisal assignment, has performed valuation services on the subject property within the past three years.

Market Value

The 4th Edition of <u>The Dictionary of Real Estate Appraisal</u> includes several definitions for market value. The following definition from the dictionary is used by the federal agencies that regulate insured financial institutions in the United States.

Market value: the most probable price which a property should bring in a competitive and open market under all conditions requisite to a fair sale, the buyer and seller each acting prudently and knowledgeably, and assuming the price is not affected by undue stimulus. Implicit in this definition is the consummation of a sale as of a specified date and the passing of title from seller to buyer under conditions whereby:

- Buyer and seller are typically motivated;
- 2. Both parties are well informed or well advised, and acting in what they consider their best interests;
- 3. A reasonable time is allowed for exposure in the open market;
- 4. Payment is made in terms of cash in U.S. dollars or in terms of financial arrangements comparable thereto; and
- 5. The price represents the normal consideration for the property sold unaffected by special or creative financing or sales concessions granted by anyone associated with the sale.

Supplemental Addendum

File	Nο	AR1	21	201

Borrower	N/A						
Property Address	0 Denise Drive						
City	Capitol Heights	County Prince George's County	State	MD	Zip Code	20743	
Lender/Client	Prince George's County						

Hazmat/Environmental statement unless otherwise stated in this report, the existence of hazardous material, which may or may not be present on the property, was not observed by the appraiser. The appraiser has no knowledge of the existence of such materials on or in the property. The appraiser, however, is not qualified to detect such substances. The presence of substances such as asbestos, radon, urea-formaldehyde foam insulation, lead paint, or other potentially hazardous materials may affect the value of the property. The value is predicated on the assumption that there is no such materials on or in the property that would cause the loss of value. No responsibility is assumed for any such conditions, or for any expertise or engineering knowledge required to discover them. The client is urged to retain an expert in this field, if desired. The subject property has not sold within the past thirty six months.

Digital Signatures

The digital signatures attached to this report fully comply with minimum USPAP reporting requirements. Security features are utilized to ensure the integrity of the signatures and data. According to USPAP Statement on Appraisal Standards No. 8 dated 9/16/1998, electronically affixing a signature to a report is acceptable, and has the same level of authenticity and responsibility as a hand written ink signature.

Detrimental Conditions Statement

There are a wide variety of detrimental conditions that can impact property values. These include, but are not limited to: non-market motivations, future temporary disruptions, acts of terrorism, stigmas, convicted criminals who reside in the neighborhood, neighborhood nuisances, future unannounced surrounding developments, structural and engineering conditions, construction conditions, soils and geo technical issues, environmental conditions and natural conditions. The appraiser has inspected the subject property on a level that is consistent with the typical responsibilities of the appraisal profession; however the appraiser does not have the expertise of market analysts, soils, structural or engineers, scientists, specialists, urban planners and specialists for the various fields. Unless otherwise stated within the report, we assume no responsibilities for the impact that the variety of detrimental conditions may cause.

Neighborhood Market Conditions

The neighborhood is approximately bound by: The subject lot is north of Walker Mill Rd; east of Suffolk Ave; south of Rte 214; west of Addison Rd.

The subject's area is made up of residential properties with some industrial, institutional and community-serving commercial properties. The "other" category in Present Land Use is for vacant or county owned land. These areas appear to have no adverse impact on residential character of area, but only stimulate the overall growth. Supporting services as well as demographic trends within the neighborhood adequately support the subject property's existing and future potential uses. Overall, the neighborhood is found to be in an economically stable stage of the real estate cycle.

Site Comments

The subject lot is a non contiguous 11.99 acres vacant lot. The physical characteristics of the subject lot make the development of these parcels more costly. There is no direct street frontage, the property is non contiguous, and the topography is slopping toward the stream that runs to the east of the subject lot.

Comments on Sales Comparison

The scope of the assignment is to estimate the fee simple market value of the subject property lot and to consider the three conventional approaches to value. The Sales Comparison Approach is most reliable when appraising vacant land.

All the sales are located within the subject's market area of properties. All the sales were considered to be similar to the subject in appeal and Highest and Best Use.

Comments on Income Approach

The income approach was not developed for this report due to the land being undeveloped at this time and the lack of residential lease data.

Final Reconciliation

The adjusted sale prices via the sales comparison approach fall in close range and support the final estimate of value. The values indicated via the sales comparison analysis are used as the final estimate because of the quality of the data.

Sale Price/Data Source/Verification Source

The sale prices of all comparable sales were verified through public tax records, or through contact with the respective Agent(s).

Highest and Best Use

The highest and best use would be to develop a single family residential nighborhood. However, the weaknesses of the subject lot cause issues with this occurring. There is no direct street frontage, the proeprty is non contiguous, and the topography of the subject lot.
